It's fun, friendly and for everyone!

Within our club there is a variety of activities for the children to enjoy. These include construction, role play, art and creative activities, small world, a reading area and lots more.

We also offer sports sessions such as football, gymnastics, basketball, racket sports and athletics.

Healthy and nutritious food is provided within the club and we are able to cater to all dietary requirements.

We follow the school's ethos and promote the 6r's to encourage continuity across the school.

All staff have First Aid and safeguarding training and work within the school on a daily basis
